Styrofoam plates/cups//bowls
Foins
Plastic wrappers / sachets
Tissues

Post-Event

Workshop waste
Banners
Prints
Decorative materials
ID cards
Band tags
Cutlery
Tissues

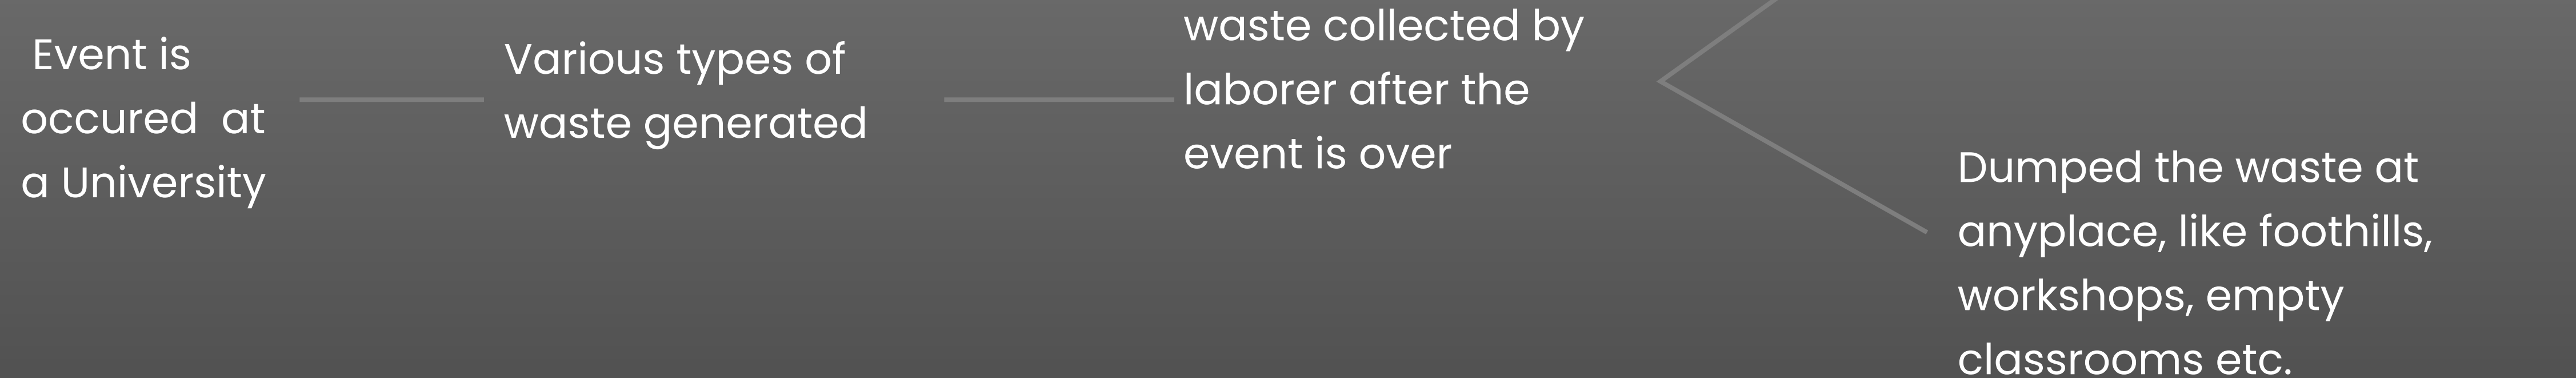

Zero Waste

A Zero Waste Event is one where careful consideration is given to the products used on site and where these end up post event. Planning in this manner may result in items being recycled, composted or avoided altogether.

- Use of reusable, compostable, or recyclable materials
- Resource recovery for donating untouched, packaged items.
- Differentiating materials for proper waste disposal.
- Eco-stations- which are disposal bins categorized between "composting", "landfill", and recycling "glass, metal, and plastic" and "paper".
- Educating patrons and raising environmental awareness about waste production

CURRENT WASTE DISPOSAL FLOW

CURRENT DUSTBIN USED

Cost: Rs. 1085

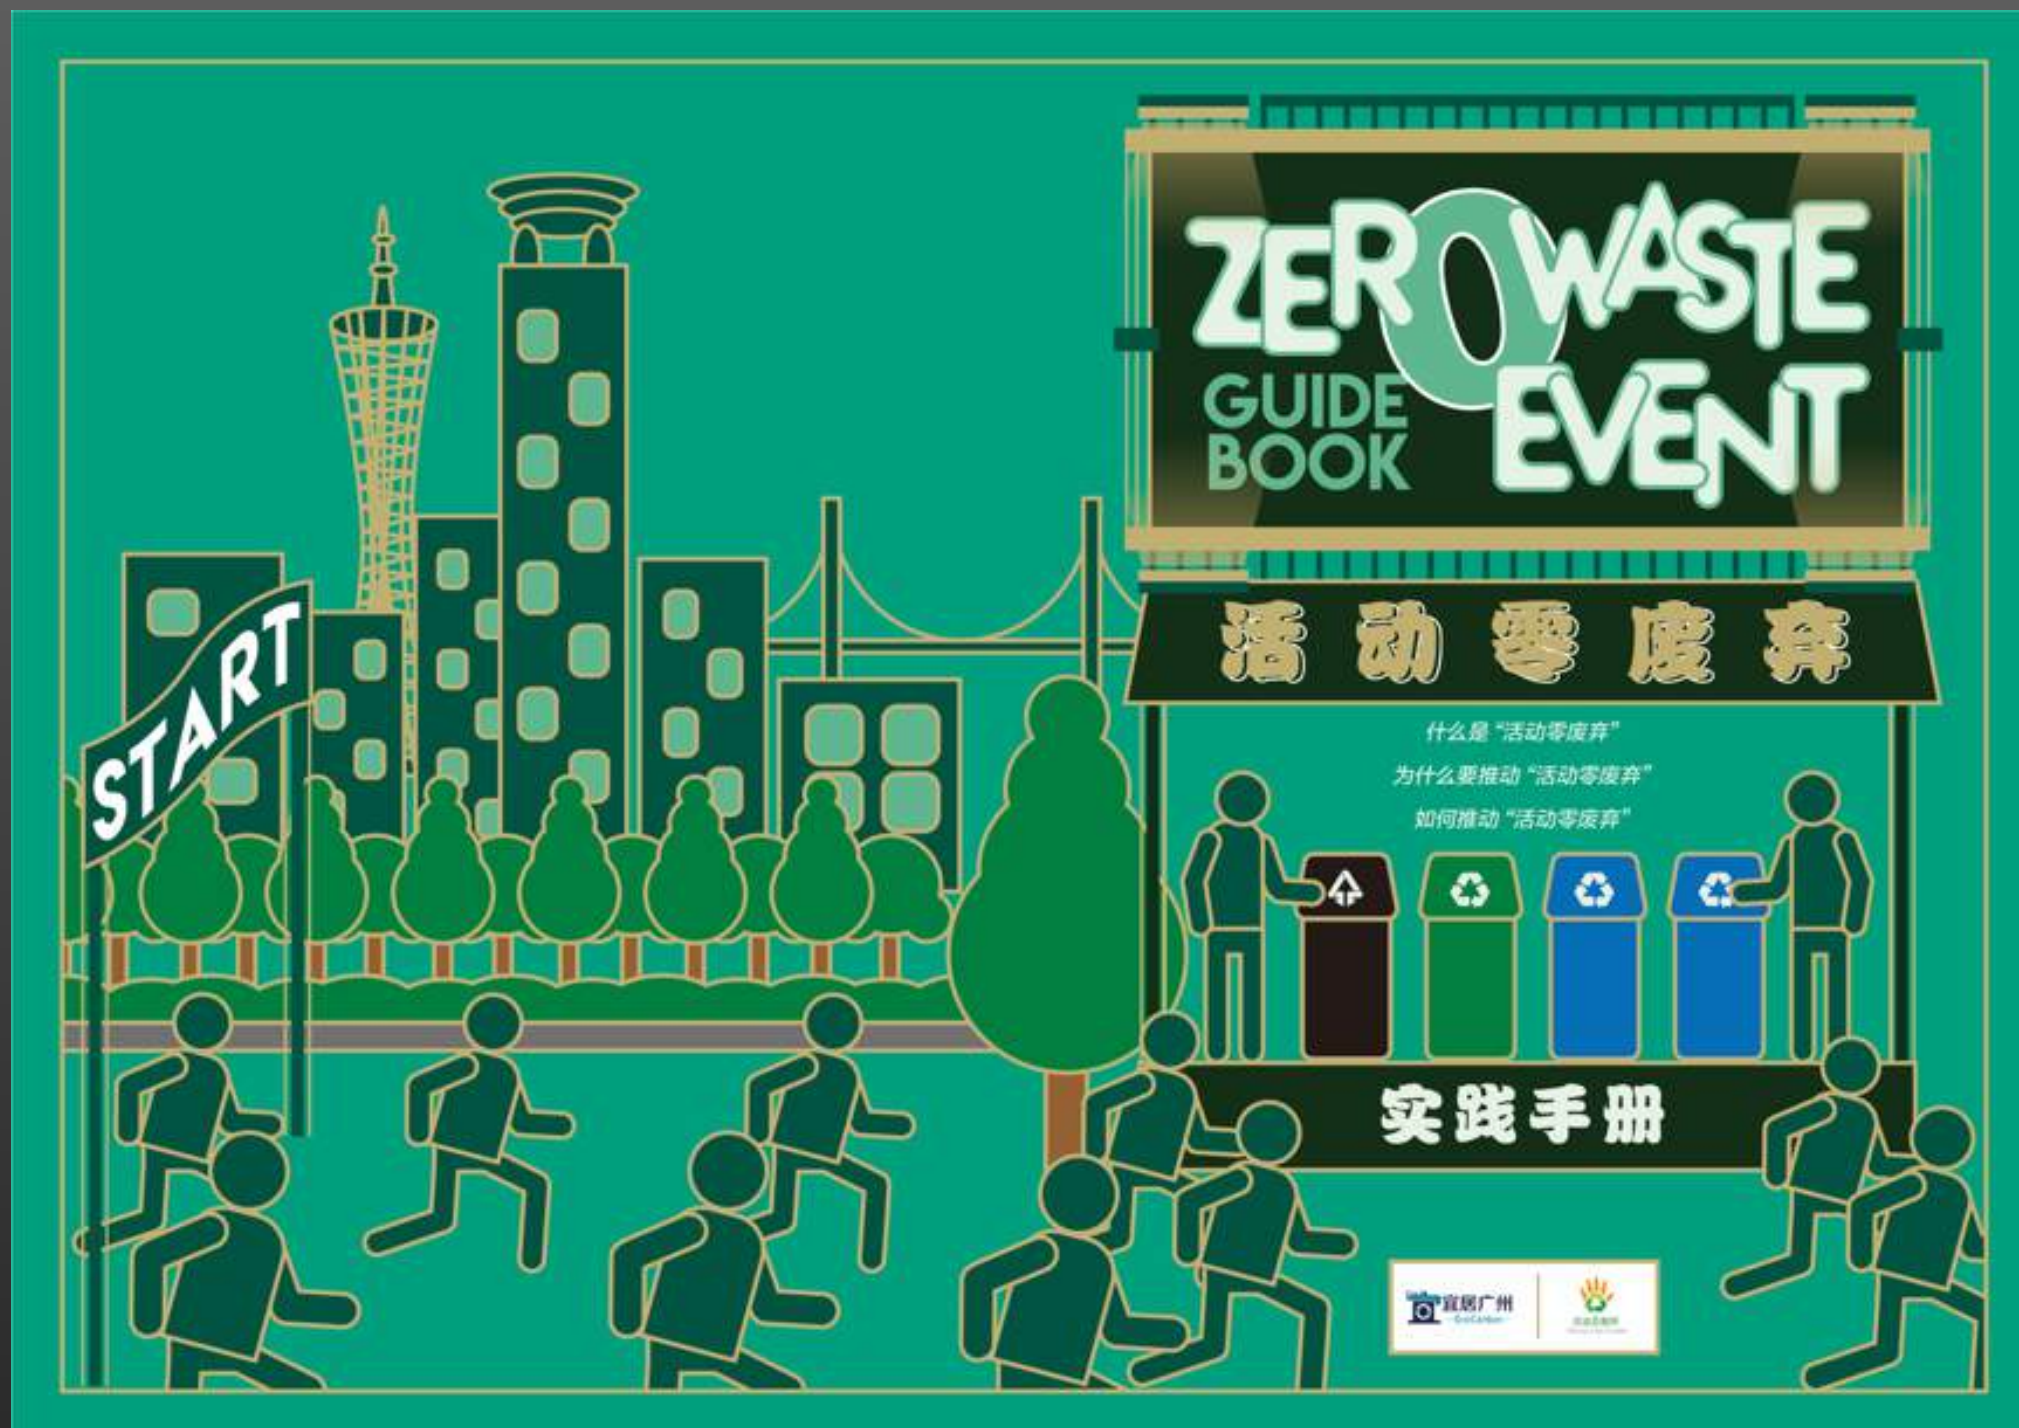

Material: PVC plastic

Capacity: 20L

Popularity: Usually seen. The model is available across different colours and can accommodate normal size of wastes in this place. The model is also easy to clean and very cheap.

WHY COLLEGE EVENTS SHOULD BE ZERO WASTE

- Drastically reduce the occasion's carbon footprint.
- Universities hotbeds of events- from college sports to student celebrations to graduations, places of higher education are high-activity areas.
- Less landfill is kinder to the environment.
- Patrons feel good about wasting less, giving your event a positive ethos.
- It is a public demonstration of good values.
- It makes your event more attractive to sponsors, funders and attendees.
- A Zero Waste Event creates goodwill amongst the team.

EMPATHY MAPPING

USERS

I was expecting something different

why are people making so much mess?

why is trash management is not properly done?

where are the bins?

Where are the navigations?

why is the place is dirty?

It wasn't worth it

I hope it is worth the hype

This is bad for environment

i hope i wont stuck in this croud

The event is really good

This place is messy

Put waste in trash

Observe the event

Makes small decisions

Locate the bins

Throw away lefovers

Checks the website/app

Observes the event

Excited

Frustrated

Fear

Clueless

Disgusted

Hopeful

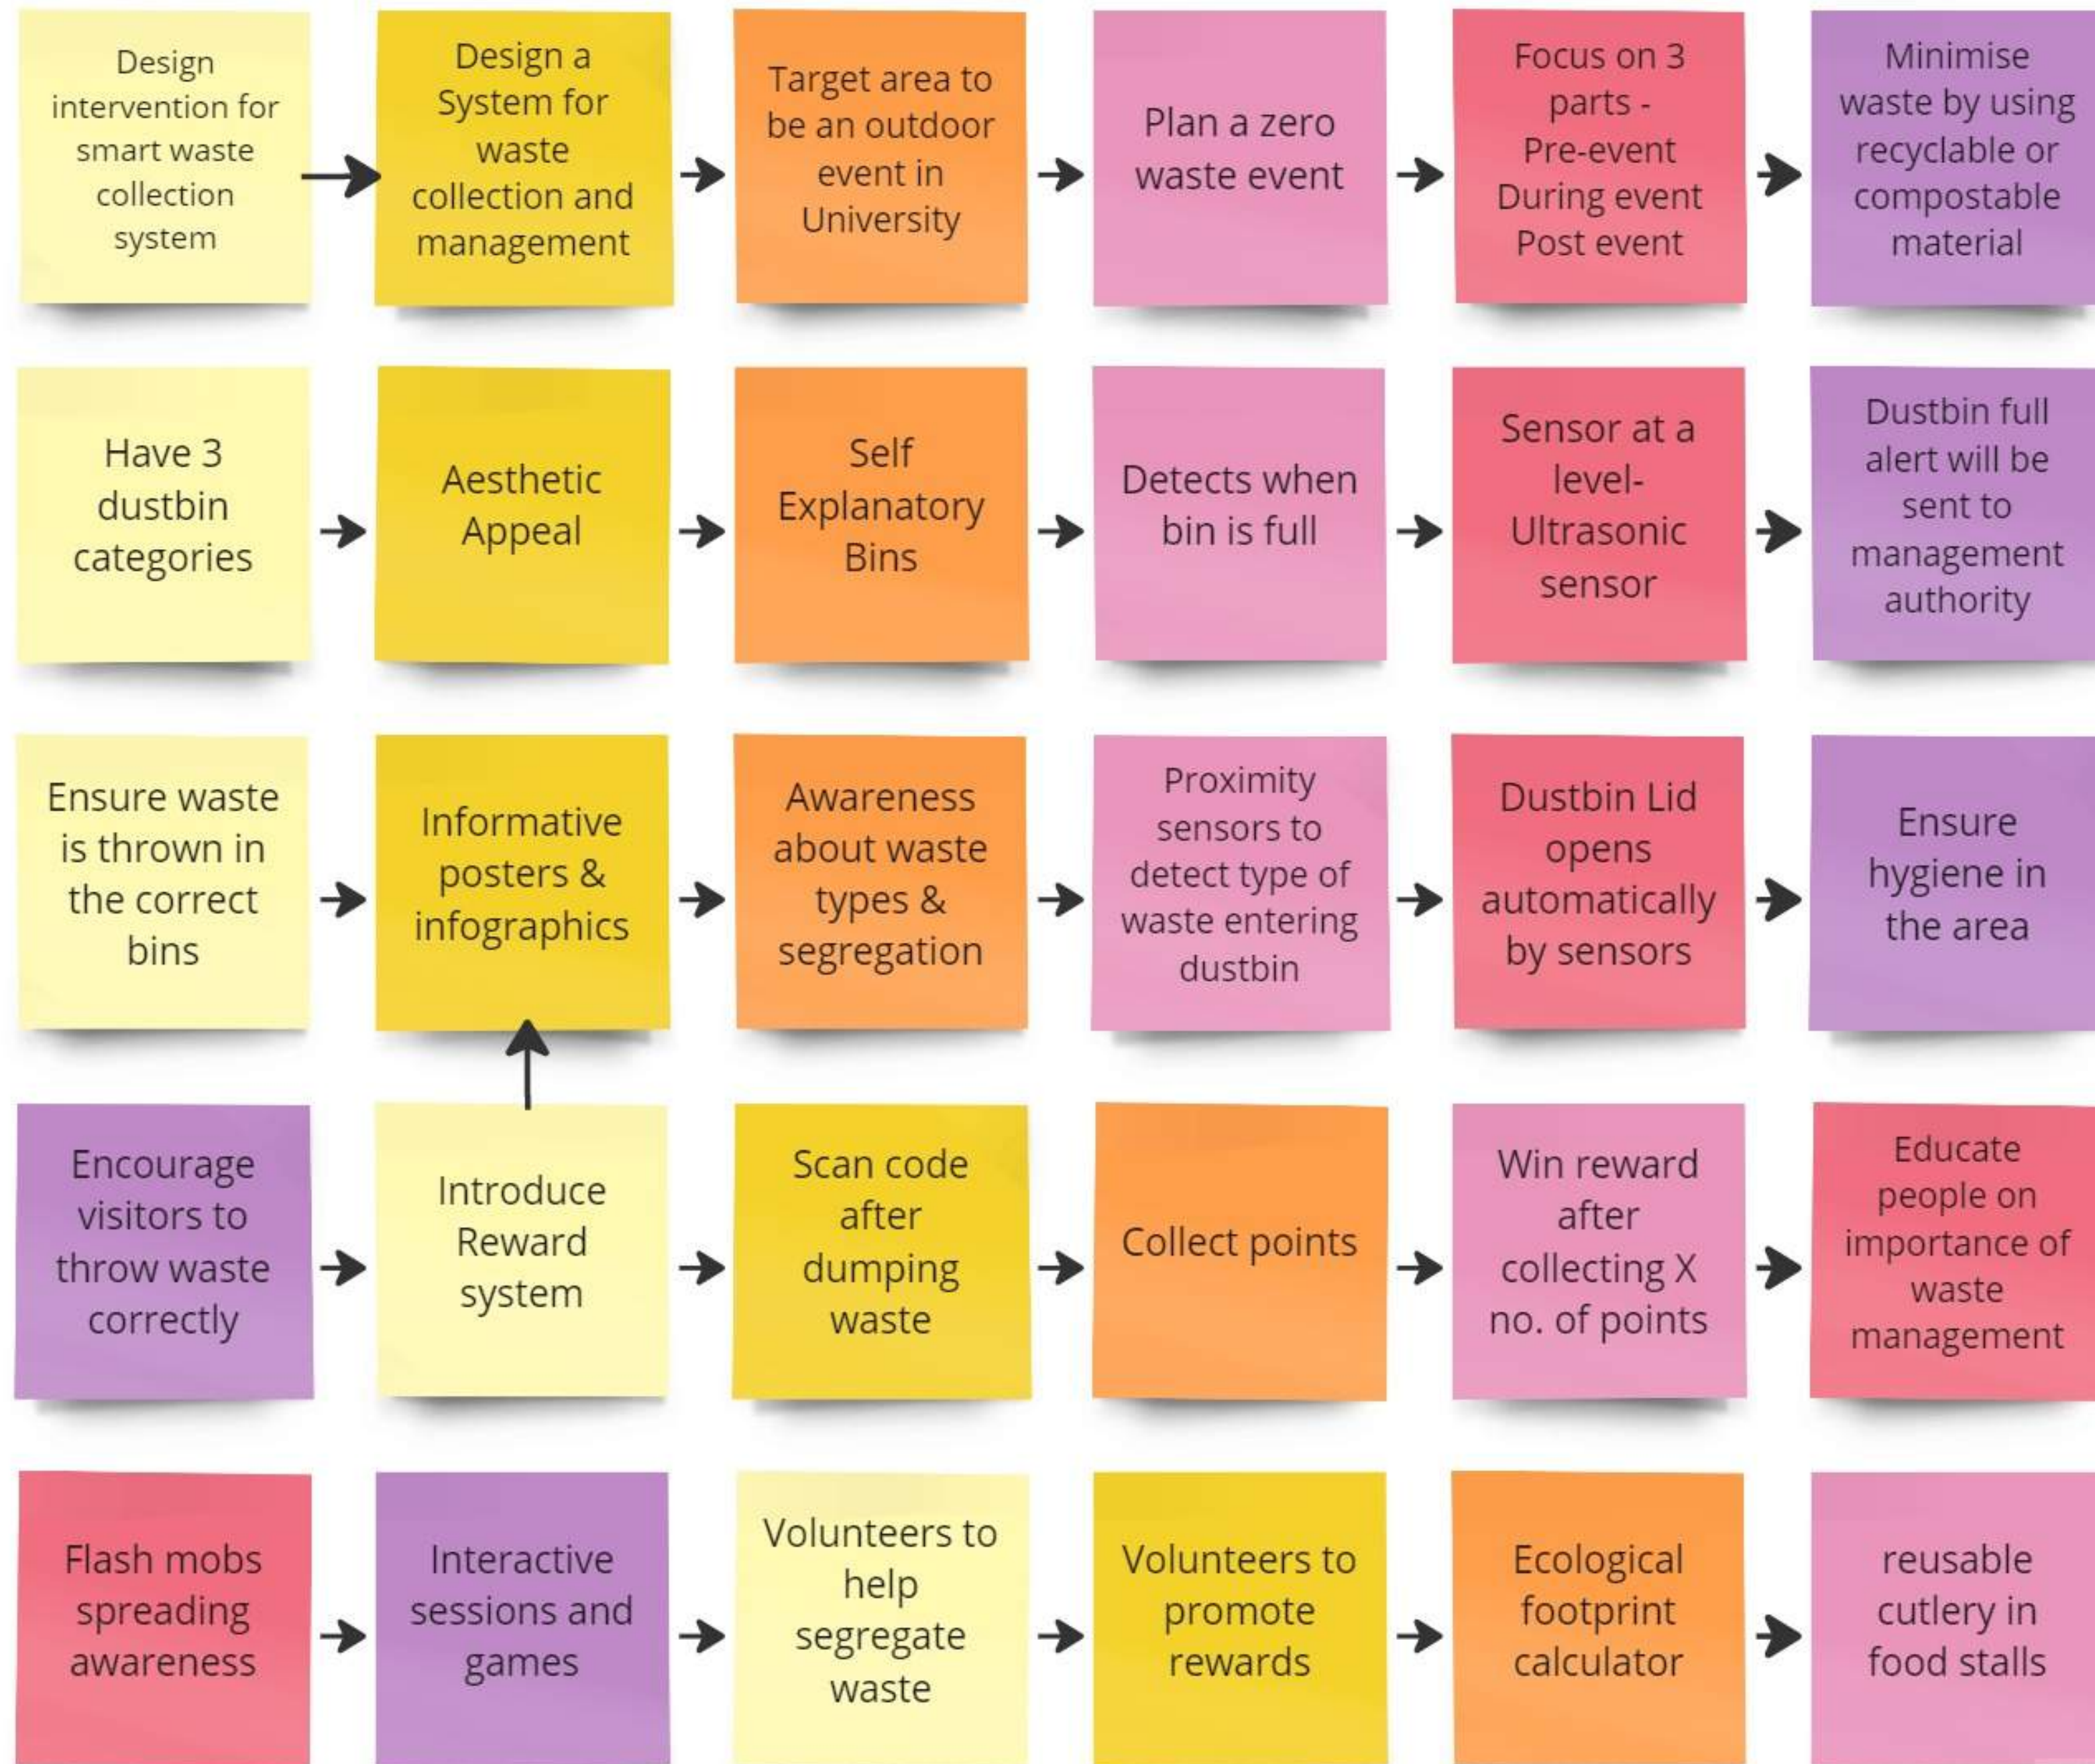

Anxious

Over whelmed

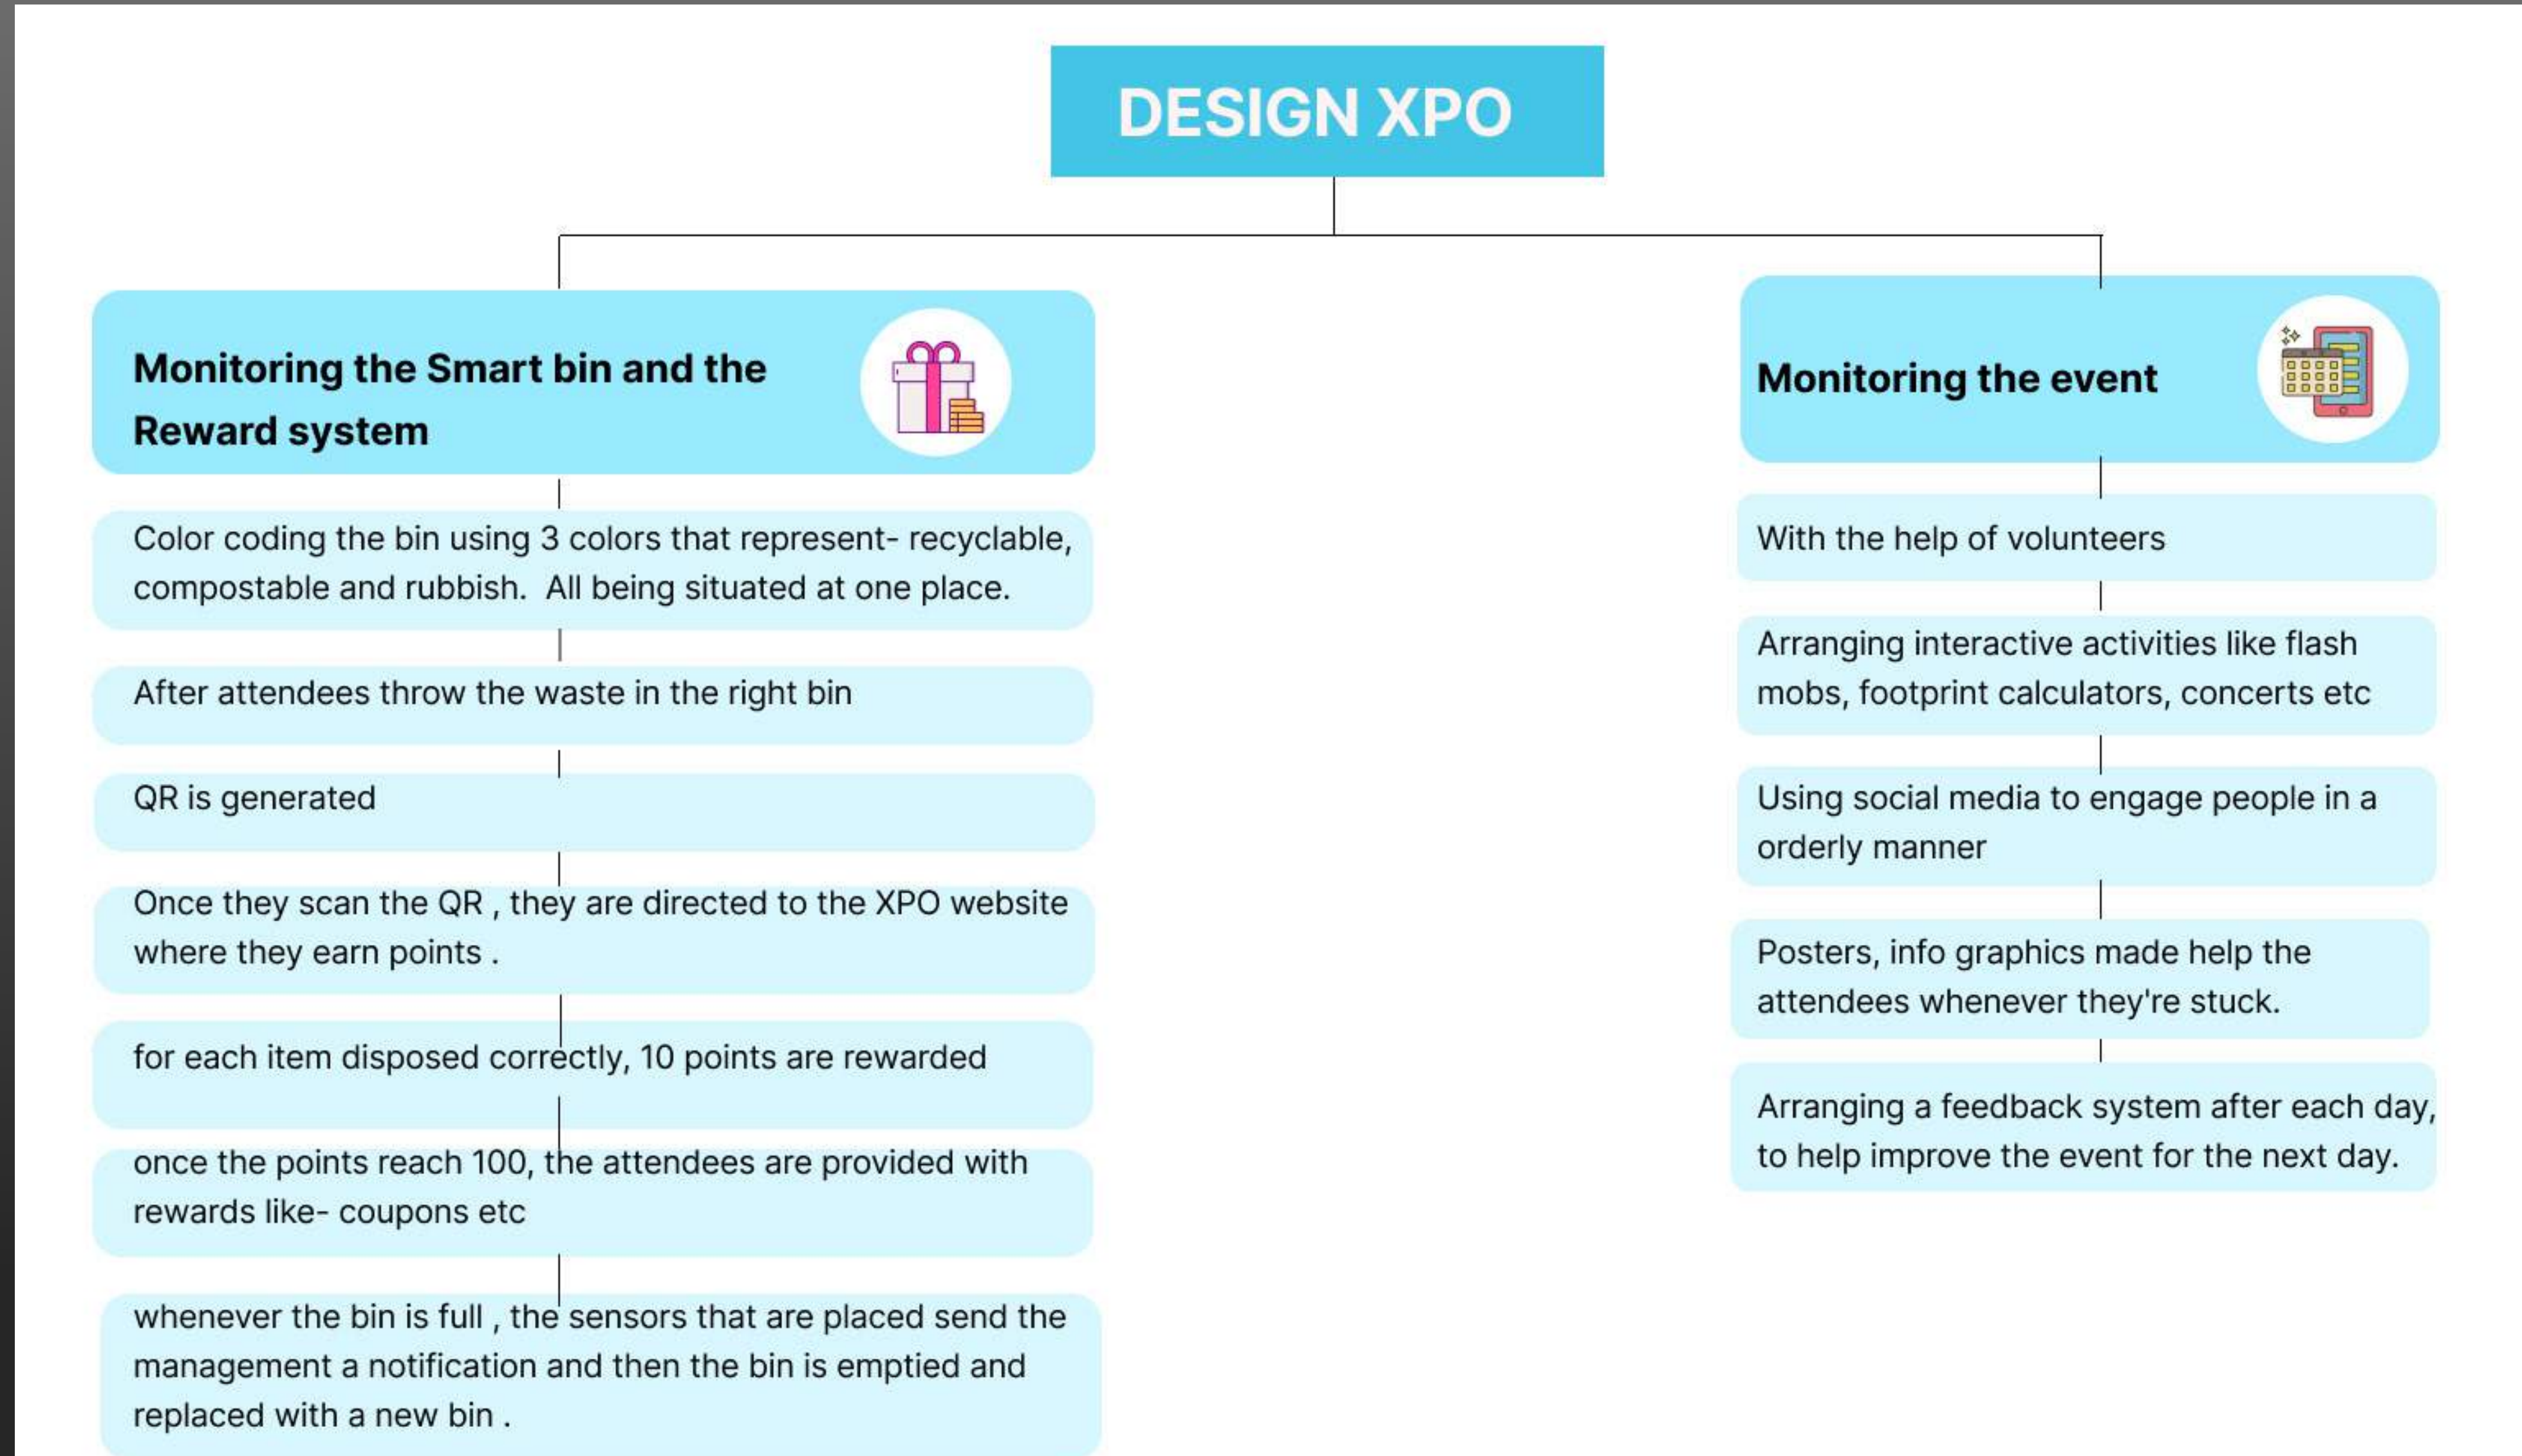

Satisfied

Navigation is confusing
